

Model: Antares

Code: HS001VF

Colour: Verde Fluo

DESCRIPTION

Lightweight and extremely comfortable safety helmet with multi-function bar that protects against debris, sun, wind and rain.

The multi-function bar allows for the quick attachment of various accessories, such as: badge holder, earmuffs, visor, headlamp strap and headlamp.

Non-slip, protective hard hat with size adjustment system, under-neck support and non-slip adjustment wheel.

The adjustment system of this accident prevention helmet guarantees comfort and stability thanks to the high size adjustment range and its design that does not interfere in the ear area.

Protective helmet with breathable, washable and interchangeable inner padding. Adjustable chin strap, with a system of criss-crossed imitation leather straps on the nape, to guarantee maximum comfort, stability and a snug fit. Headband adjustable in 3 different positions.

EN 397 protective hard hat ideal for use in the following areas: construction sites and building, ports, maintenance, woods and forests, industry, heavy industry, road work.

U-Power safety helmets are compatible with any type of earmuffs on the market.
